ABS

PRODUCTS

SERVICES

COMPANY

WELCOME!

Welcome to the world of ABS,

discover the world of modern shopfitting. For many years, we have been a reliable partner and supplier for shopfitting projects throughout Europe. Our range of services meets every requirement of modern, integrated shopfitting:

Planning,

from the initial on-site meeting to the complete 3D concept.

Design,

aligned with your corporate identity - or developed for you by us.

Installation,

reliably and expertly delivered by our own team.

Sales & shipping,

dedicated contacts, extensive storage capacity, high availability and our own shipping department support lasting sales success in your retail spaces.

Drawing on its experience, expertise and flexibility, our family-run company also fulfils individual customer requirements - from countertop displays to shop-inshop concepts. Innovative solutions from the initial idea to the completed store define shopfitting made by ABS today.

Shopfitting „made by ABS“

All shelving components we offer are our own products. We manufacture these components under our own responsibility or have them produced by experienced partners. ABS has no corporate or licensing ties to other suppliers.

To prevent confusion with components from other manufacturers or suppliers, our shelving components are embossed with the ABS mark. This quality mark identifies them as genuine ABS shelving components.

Modular shelving components embossed with ABS have become a recognised mark of quality and have proven themselves in thousands of stores across many sectors.

COUNTERS

The heart of the store

You never get a second chance to make a first impression. The counter is the focal point of every store and often creates the customer's first impression.

A counter should therefore be perfectly matched to your shopfitting concept. Whether used as a reception, checkout or information counter, we plan every detail around your individual needs and requirements.

We place particular emphasis on ergonomic design that supports healthy working. Thanks to our extensive range of counter elements, we can meet almost any functional and design requirement.

FARM SHOP

Your farm shop from a single source

Our farm shop shelving system creates a visual highlight in your store. All you need is an ABS shelf. The compatible system creates strong accents and puts your products centre stage.

We manufacture this shelving individually to your requirements. Colours, wood finishes and equipment can be freely selected. We also offer an extensive range of accessories including shelf lighting and special merchandise supports.

Make a statement!

ABS-PLUS

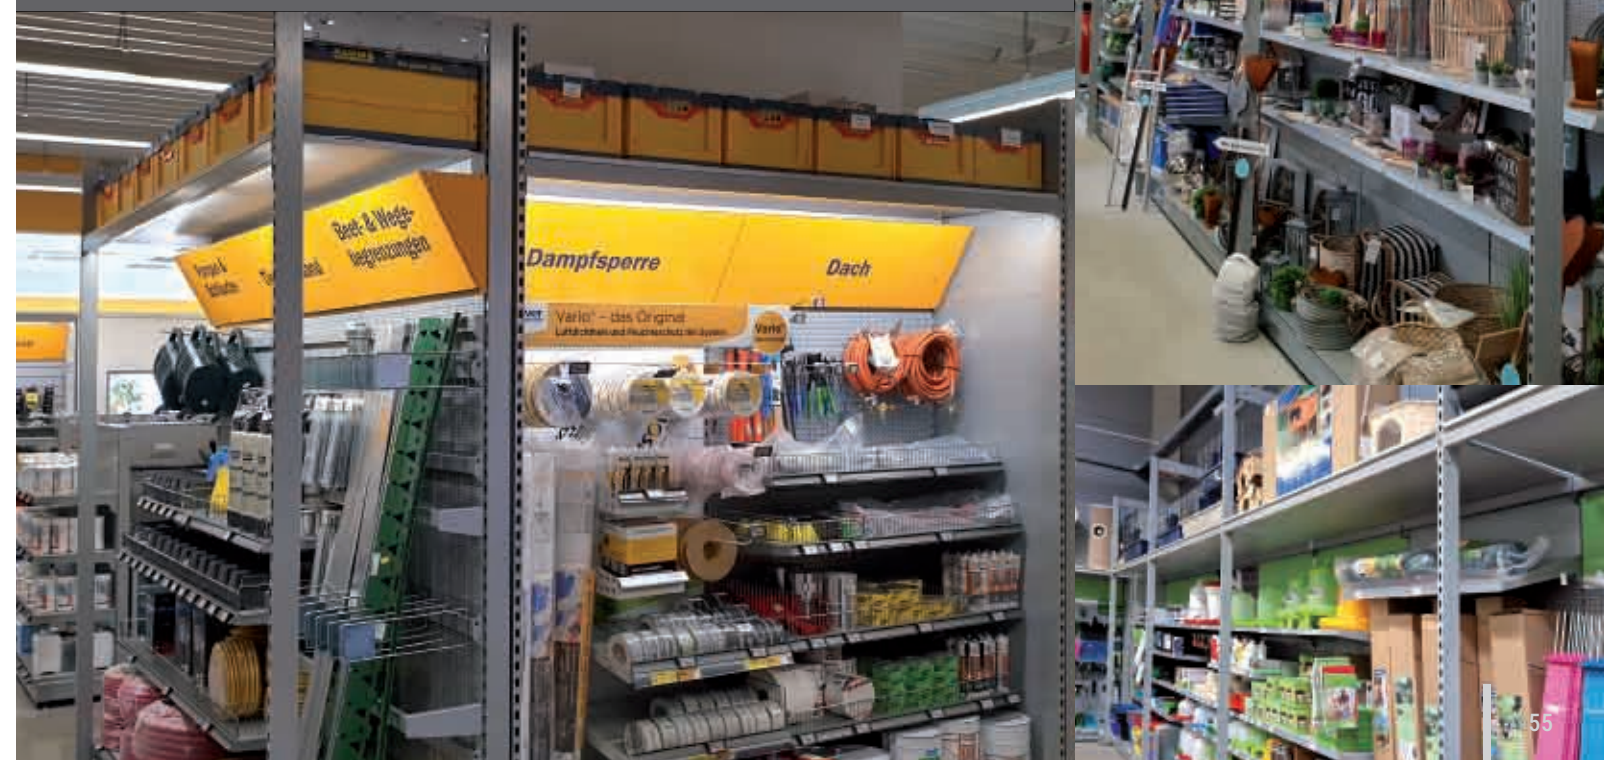

The space-saving marvel

Strong, elegant and practical - the versatile alternative for your specialist store. ABS-PLUS shelving is the perfect choice for presenting medium-weight, bulky and high-volume products. The flexible shelving system is highly versatile and can be combined with any standard ABS shelving.

Ideal for:

garden centres, beverage stores, DIY stores, pet stores, country stores, etc.

Planning

We plan ...

... and develop a tailor-made concept that meets your individual ideas and requirements.

- detailed consultation, also in site
- visualisation of your project in all areas: floor plan, 3D and detail views, etc.
- you can already during the planning phase „virtually walk through your new store“, if required
- design of individual presentation systems for special goods and products

We design ...

... a distinctive,
individual appearance
for your store.

Our services:

- conceptual
implementation in line
with your CI/CD
- retail spaces with
atmosphere through
digital printing, etc.
- 3D lettering/logos
- Photo management
- new development
for displays
- individually designed
shop systems and
much more
- Additional graphic
design services
available upon
request: flyers,
advertisements,
posters, etc.

Installation

We realize ...

... new construction, renovation or conversions with our own installation team.

- professional, high-quality and precisely fitted down to the last detail
- reliable, on budget, on time execution
- expertly crafted implementation by our experienced and flexible installers
- professional project management
- special requests can also on site be fulfilled

Salz Group

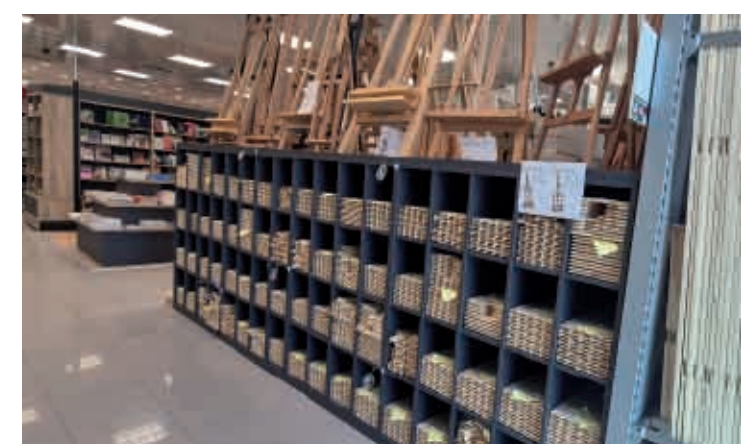

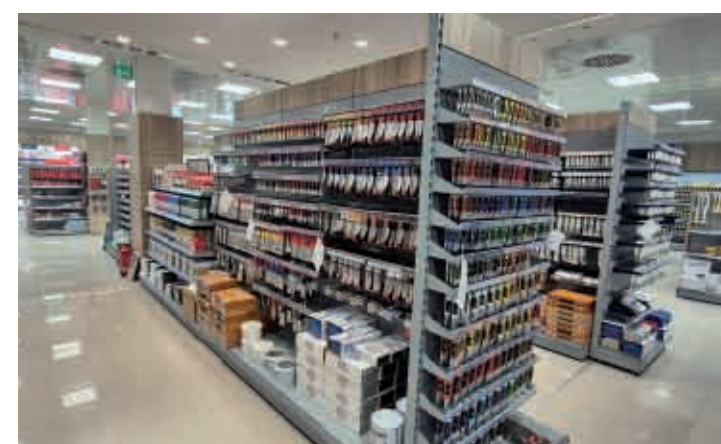

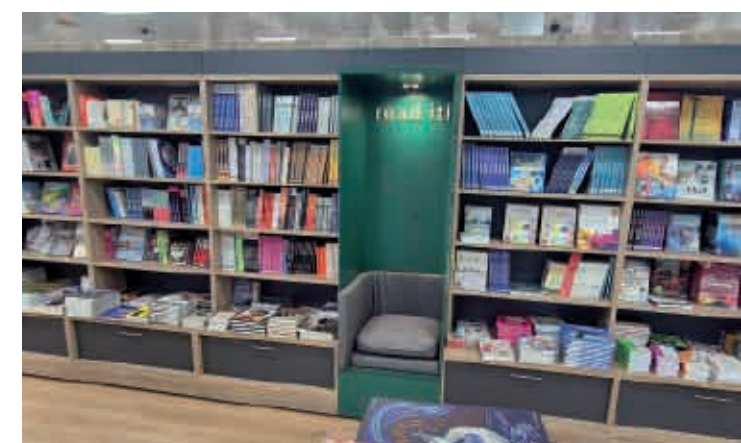

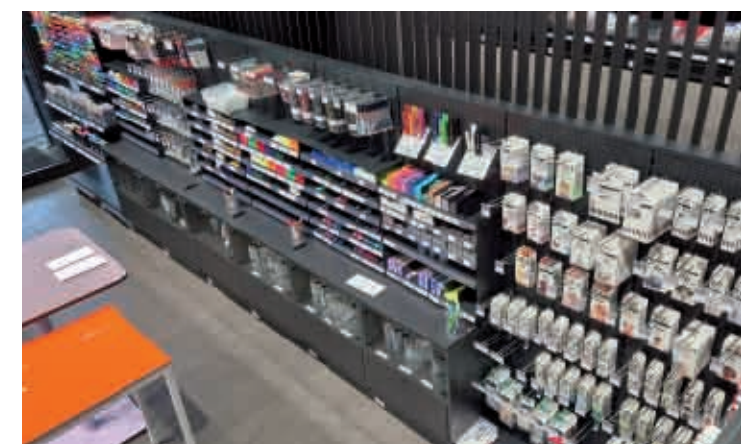

We deliver ...

... promptly, flexibly and reliably. Benefit from our delivery expertise for smooth operations.

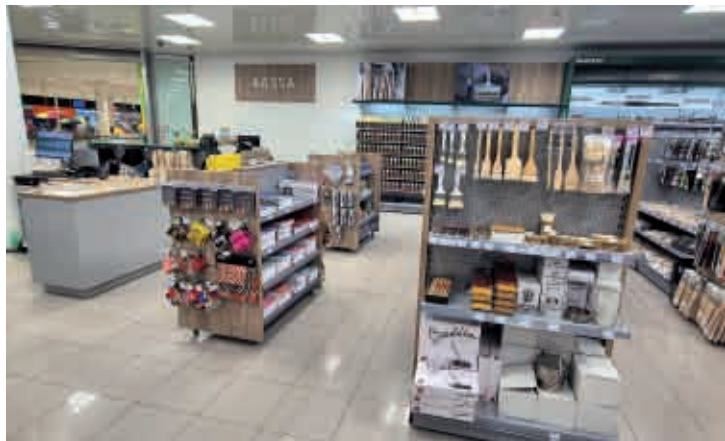

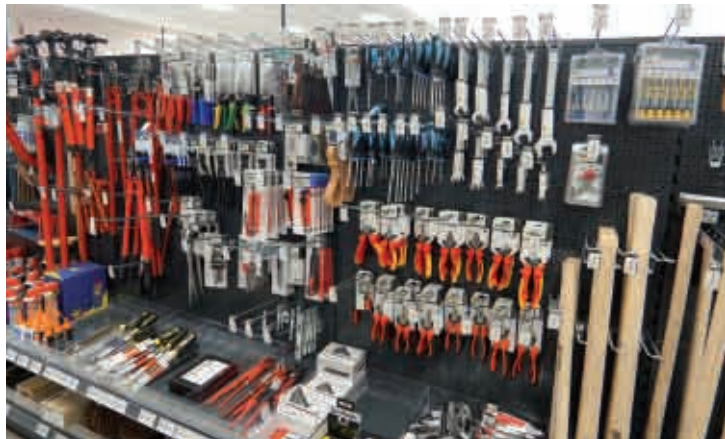

We offer:

- own warehouse with approx. 4.000 items immediately available
- stockholding of requested items
- dedicated contacts
- in-house packaging and shipping department
- special requests are implemented quickly and efficiently

References

Experience + expertise

Benefit from our many years of experience and expertise. Over the past 30 years, we have learned to understand specific project challenges and individual solutions for high-impact shopfitting

Ideas + development

We aim to meet your individual requirements and visions at all times and are therefore engaged in a continuous process of development and optimisation. Because your success is our goal.

Figures + facts

- 20 permanent employees
- more than 240 years of experience in shopfitting
- 2650 sqm warehouse space
- 17 countries supplied
- ca. 4.000 different items held in stock

Responsibility

We are a family-run training company with a passion for shopfitting. We value a friendly and fair working environment and the wellbeing of our employees - the basic requirement for high-quality work.

Quality + function

Our product range is designed for a long service life and intensive use. Stable and safe structures made from precision-manufactured components distinguish shopfitting made by ABS. We also rely on a proven network of expert suppliers.

Passion for shopfitting

The satisfaction of creating a successful store is the motivation that drives us every day. Creating integrated, innovative shop solutions that delight the customer is our passion.

Added value + sustainability

Our goal is to plan your store with foresight and sustainability while also making a contribution to the environment. Environmentally responsible waste and packaging disposal and the careful use of natural resources are central to our work.

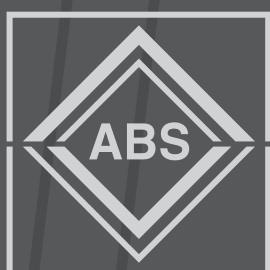

Trust

Our team works professionally, purposefully and reliably to implement your concept. With us as your partner, there are no unpleasant surprises. Delivery and installation are on time and in line with all agreements.
